

Moreton Bay Regional Council
Project Update

Dredging and beach rehabilitation works - Newport Waterways

*Monthly Update
December 2013*

Maintenance dredging works in the Southern Marina are complete. Dredging in Pelican, Cormorant and Petrel Canals is also complete.

Sandpiper Canal dredging is progressing and will be completed early January 2014.

All dredging works are expected to be completed in June 2014.

Maintenance dredging will stand down on 21 December 2013 and recommence on 6 January 2014.

Beach re-profiling works will stand down on 20 December 2013 and recommence 13 January 2014.

The beach re-profiling program is expected to be completed by March 2014.

The dredging team will be on site during the hours of 7.00 am and 6.00pm weekdays and 7.00 am to 5.00 pm Saturdays. During this time there may be interruptions for boating access.

Moreton Bay Regional Council apologises for any inconvenience caused, your patience and cooperation is appreciated whilst the dredging works are underway.

Council is tendering for the rehabilitation of the remaining sand canals with a gravel beach profile.

For more information about this project, please contact council's Senior Project Manager, **Noel McBride** on 3205 0555.
